

## Data Wise: Real Assessment for Real People

Wednesday, March 7, 2012

District Data Wise Team

### Guiding Question:

How does the regular use of data improve student learning; and, how might we, at the district-level, support school staffs in their work to use data to improve student learning?

### Long term target:

Implement the regular use of data to improve student learning using the Data Wise process.

### Short term targets: I can....

- Share and answer *Jeopardy* questions for review
- Use the new Q
- Develop a shared understanding of MontCas Math 3, 5, 8 and 10

### AGENDA

<b>7:30-7:35</b>	Welcome, review agenda	5 min.
